PERSONAL PROJECTS

Sort-it-out

This project is a Web Visualization tool for sorting algorithms-Quick Sort,Merge Sort,Selection Sort,Insertion Sort,Bubble Sort and Heap Sort.
Technologies used- HTML,CSS and JavaScript

Floating Video Player

This project uses the Picture-in-picture API and the Screen Capture API . Picture-in-picture allows users to watch videos in a floating window (always on top of other windows) so they can keep an eye on what they are watching while interacting with other sites or applications.

JavaScript Whiteboard

This project is inspired from MS Paint .It enables users to draw and use it for

the purpose of teaching during an online class.
