PROJECTS

Floating Video player
Picture-in-Picture (PiP) allows users to watch videos in a floating window (always on top of other windows) so they can keep an eye on what they're watching while interacting with other sites, or applications.
In other words, even we switch the tab in which video is playing , the video element is still visible to you . Which you can drag anywhere across the screen .

Music player web app
a JavaScript music player web application .

Javascript Whiteboard
It's kind of an extensible MS Paint in JavaScript. Enables users to draw and use it for the purpose of teaching during online class.

Programming Skills

- 5 star at Hackerrank Problem Solving.
- Technical Head at ACM Official Chapter.
